

A new generation semi-synthetic engine oil for four-stroke motorcycles formulated with high quality mineral and synthetic base oils combined with special developed balanced additives to achieve the following properties:

a high and stable viscosity index
 good cold start properties
 optimal friction characteristics
 a very strong protection against wear, corrosion and foaming
 a very good detergency and dispersion

Performance

- API SL
- JASO MA2
- JASO MA

Applications

This oil is special developed for the lubrication of four-stroke motorcycles, so that sliding, sticking and/or rough changing of the clutch-plates no longer occurs. This oil is developed and tested in co-operation with the most important motorcycle producers and has its performance demonstrated in the field.
