

High quality special lithium complex greases suitable for high temperature operations and heavy load requirements. Operating Temperature: -30 ° C to +150 ° C.

## Applications

This greases are suitable for a wide range of general purpose applications demanding EP and high temperature properties. They can be used in heavy duty wheel bearings axles, ball joints, chains, cables etc.

- ? Resistance to water washout.
- ? Excellent adhesion to metal surfaces.
- ? Maximum equipment protection.
- ? Wide temperature range of efficient operation.
- ? High resistance to extreme operating conditions.

Characteristics	Unit	Media
Densità a 15 ° C	kg/l	
Viscosità -20 ° C	mPas	
Viscosità 40 ° C	mm <sup>2</sup> /s	
Viscosità 100 ° C	mm <sup>2</sup> /s	
Indice di viscosità		
Punto di infiammabilità COC	°C	
Punto di scorrimento	°C	
Numero base totale	mgKOH/g	
Ceneri solfatate	%
